

NEW HAMPSHIRE INTERSCHOLASTIC ATHLETIC ASSOCIATION

TO: Athletic Directors; **Flight Two**
FROM: Jeffrey T. Collins, Executive Director
SUBJECT: Bass Fishing Qualifying Round Parking Instructions
DATE: September 2019

The 2019 Bass Fishing Qualifying Round will be held out of Center Harbor, utilizing the Public Beach Boat Ramp located on Lake Street off of Route 25. With two flights of boats competing, the Bass Fishing Committee is looking to limit the amount of traffic backed up onto Route 25, and in doing so; we would like to ask for schools' cooperation in parking for the days' event.

Your school has been drawn to launch in **Flight Two**. We are asking that all boats in **Flight Two** follow these instructions when dropping their boat in the water on the day of the qualifying event.

- Boats in Flight One will be offered priority use of the Boat Ramp. Boats in **Flight Two** will be permitted to utilize the boat ramp after Flight One has dropped in their boats.
- To limit the traffic on Lake Street at the Boat Ramp, we are asking that **ALL BOATS** in **Flight Two** go straight to the parking lot of the Center Harbor Congregational Church to stage and prep for dropping in their boat.
 - A volunteer will be at the opening of the Congregational Church Parking Lot assisting in the staging process.
- Once all boats from Flight One have been dropped in, drivers from **Flight Two** will be invited down to Lake Street to register and drop in their boats.
- Upon dropping your boat in the water, trucks and trailers of **Flight Two** should proceed back to the Center Harbor Congregational Church Parking Lot where you will park your truck and trailer.
 - A volunteer shuttle service will be available to transport captains and or coaches back to the Center Harbor Beach.
 - Should you wish to forgo the shuttle service, you may walk down the sidewalks on main street and cross route 25 at the cross walk to get to the Center Harbor Beach.

Note – A map has been provided on Page 2 of this memo, noting the parking and staging areas for boats in **Flight Two**.
